

Year 3/4 Summer Term Curriculum 2026

	<p>The children continue to develop their growth mindset as it leads to a desire to learn and therefore a tendency to embrace challenges, persist in the face of setbacks, see effort as the path to mastery, learn from criticism and find lessons and inspiration in the success of others. We promote this positive attitude to learning across the curriculum. This overview gives an outline of the Year 3/4 summer term curriculum.</p>	
<p>English</p> 	<p>Narrative – ‘The Miraculous Adventure of Edward Tulane’ by Kate DiCamillo Poetry- Rhyming Poems Narrative – Letters- inspired by ‘The Boy At The Back Of The Class’ by Onjali Rauf Alongside writing, children will be revising aspects of spelling, grammar and punctuation and reading a wide range of texts, both in reading lessons and across the curriculum. The children will continue to engage with Powerful Words to further enhance and develop their vocabulary.</p>	
<p>Maths</p> 	<p>Year 3</p> <ul style="list-style-type: none"> Fractions Measures - Time Geometry Measurement- Mass and Capacity Statistics 	<p>Year 4</p> <ul style="list-style-type: none"> Fractions Decimals Measurement - Money, Length, Mass and Capacity Measures - Time Statistics Geometry (Position and direction)
<p>Year 4 children will complete the government Multiplication Tables Check (MTC) this Summer. More detailed information will follow, but if you have any questions or concerns in the meantime, please contact your child’s class teacher.</p>		
<p>Science</p> 	<p>Light The children will learn how light is reflected from surfaces, that shadows are formed when the light from a light source is blocked by an opaque object and discover patterns in the way that the size of shadows change. In addition, they will recognise that we need light in order to see things.</p> <p>Key skills unit focussing on previous enquiry and investigating skills The children will have time to revisit and extend their science learning from previous topics taught in the academic year. There will be time provided to plan, perform and evaluate investigations.</p>	
<p>History</p> 	<p>Local History Study- Cambridge The purpose of this unit is to build on the children's wider understanding of their local area from Year 1/2. Children explore how the city of Cambridge has changed/stayed the same over the years and consider the significance of the city. Finally, they find out about significant people from the city, particularly reflecting on individuals who may have been overshadowed in history. The unit will be enhanced by their educational visit to Cambridge from last term.</p>	
<p>Geography</p> 	<p>European Study - Spain Children look at the contrasting European country of Spain, considering its location, climate and weather, human and physical features and finally Madrid as a destination city. There are lots of opportunities to build on their previous understanding of tourism, place and space, and physical processes while expanding their cultural awareness and understanding of a different location.</p>	
<p>Art</p> 	<p>Using Natural Materials to Make Images In this unit children are introduced to Cyanotypes, and the work of the first female photographer Anna Atkins. They are also introduced to artist Frances Hatch, who finds and makes pigments from the landscape she is drawing. Children then go on to make their own imagery, choosing one or more methods, to make artwork which is rooted in the materials and place in which it was made.</p> <p>Exploring Still Life Children delve into the timeless genre of still life, honing their observational drawing skills and experimenting with various mediums like collage, photography with paint, clay relief, or graphic still life. They deepen their understanding of artistic elements and develop their artistic abilities while exploring the rich tradition of still life art.</p>	

<p>Design and Technology (DT)</p> 	<p>Mechanisms- Levers and Linkages In this Design and Technology unit, your child will be creating interactive images. They will learn how to incorporate different mechanisms, such as sliders and levers, into their images to make them engaging. KS1 children are the target audience, so children will be designing their images with them in mind.</p>
<p>Physical Education (PE)</p> 	<p>Children will be participating in outdoor games including cricket and tennis. They will be focusing on skills relating to hand and eye coordination as well as tactics and rules relating to the different sports.</p> <p>Tennis The children will be developing their skills at positioning, striking and serving in Tennis.</p> <p>Athletics Children will be focusing on athletics and the different elements within a heptathlon, running, jumping and throwing.</p> <p>Golf Children will be developing their golf skills using the roller and launcher to hit the ball. They will also develop their social skills including teamwork, co operation and communication.</p>
<p>Computing</p> 	<p>Programming - Repetition in Games Children will be exploring the concept of repetition in programming using Scratch. They will look at the difference between ‘count-controlled’ and ‘infinite loops’ and use their knowledge to modify animations and games using repetition. The final project is to design and create a game which uses repetition.</p>
<p>Music</p> 	<p>Calypso & Reggae Music This term, children will explore Calypso and Reggae music, beginning with a recap of rhythmic notation from previous learning. They will learn about where these music styles come from and what makes them distinctive. Children will sing and play music, identifying key musical features, and will finish the unit by composing their own song in a Calypso or Reggae style, applying their musical knowledge creatively.</p>
<p>Personal Social Health Education (PSHE)</p> 	<p>Relationships and Sex Education: The children will learn about the different parts of our bodies, and how to ensure that we look after our bodies as we grow up. Healthy and Safe Lifestyles: Managing Risks: Children will learn how to stay safe by recognising risks, understanding peer influence, and developing safety skills for everyday situations such as roads, water and fire. They will also learn basic first aid and ways to reduce risks at home and outdoors.</p> <p>There will also be PSHE lessons which focus on transitions towards the end of the year.</p>
<p>World Views</p> 	<p>The children will be building on their understanding of an Islamic Worldview and exploring ‘Why are the 5 pillars of Islam an important idea for Muslims? The 5 pillars are Shahadah, Salah, Zakah, Sawm and Hajj (the declaration of faith, prayer, giving, fasting and pilgrimage). We will explore what these ideas mean to Muslims and how they might demonstrate them in their lives.</p> <p>In the following unit, the children will investigate places for worship in their local area. They will demonstrate their new knowledge by designing a place for worship suitable for a new town, answering the question, ‘What does a place of worship need in a new town?’.</p>
<p>Languages</p> 	<p>The children will be learning and applying basic adjective agreement and word order to describe some of Monet’s famous artwork. The children will begin to express opinion within this topic. The children will also use their reading and speaking skills to perform a traditional French tale within groups to the class. Food and Drink – we will introduce the topic of food and expressing preferences, revisiting and applying our learning from our art study of Monet.</p>
<p>Enrichment</p> 	<p>24th April – Year 4 Bikeability 23rd June – Year 3 Ely Arts Festival</p>
