

Friday 5 September 2025

Dear Parent / Carer

Welcome to my first Principal's Message of 2025/26. I hope you had a great summer and enjoyed the good weather. It has been wonderful to welcome students back to school this week and we have given a very warm welcome to our new Year 7 students who have made a fantastic start to their secondary education.

Thank you for ensuring your child was well prepared to return to school. This enables a strong and positive start. As a parent myself, I recognise the time that goes into getting the right equipment and uniform, so I do appreciate your effort with this.

I am delighted to share with you that our Class of 2025 achieved a strong set of GCSE results. You can read more about it [here](#). It was wonderful to see the students and their families on results day in August and we wish them very well for the future.

This week at Lincroft Academy

Year 7 and Year 11 returned on Wednesday. Year 7 students started with a welcome assembly and induction morning, and Year 11 began with a GCSE Futures Conference. When all students returned on Thursday, they had a new year induction with their tutors to prepare them for being the best they can be in the year ahead. Providing an environment where students feel safe, happy and can thrive is essential and our induction reminded students about our CARE values and the systems that we have in place to support them to be the best they can be, celebrate success and maintain our CARE culture. We encouraged students to seek support if they need it and share any concerns as they arise. Our partnership with you as parents and carers is important to us; if you would like to contact us about your child, you can find contacts [here](#), House Team information [here](#) and safeguarding [here](#).

Other information

Medical Room & Procedures

We have a central medical room for students requiring medical support during the day. We do not permit students to carry over-the-counter medicines whilst in school and staff are not able to administer these. However, if your child requires these, we will contact you so that you can administer the medication. If your child uses regular medication, such as an asthma pump or inhaler, please ensure they have two devices with them at all times, in line with government guidance. Students with existing care plans will shortly receive these for their annual review – we kindly ask that you return the updated plans by the given deadline. If your child has a medical need that we are not yet aware of, please do inform us by contacting the house team who will be able to assist.

Nut Allergy Awareness

Whilst we are not a nut-free school, we take allergies seriously and aim to reduce risks. We kindly request that students avoid bringing food containing nuts to school.

Website

We are currently updating our website and some areas are still under construction. Please bear with us during this time. In case you missed it, our July Newsletter can be found [here](#).

Looking ahead

We have included some key dates for your diaries at the end of this letter. We will send you a full overview of key dates for this academic year next week.

Have a lovely weekend.

Yours faithfully

Ms E Appadoo

Principal

Looking ahead: key dates

Date	Year Group	Event
Tuesday 16 September, 5:30 – 6:30pm	Year 9	Information evening: Supporting your child through Key Stage 4
