

Explore Pathway

This term learners will have the opportunity to learn...

English

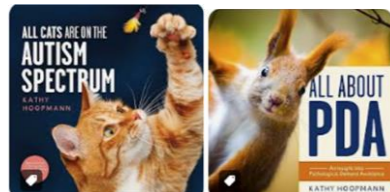

This term we will begin by learning to write clear instructions. Looking at what happens if we miss out steps...

We will then write an explanation text about how to mummify a tomato!

Love of Reading

We will be sharing and enjoying the beautiful, funny photographs of animals to help us understand a little more about autism and PDA.

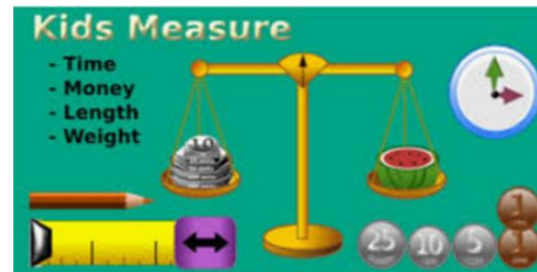

Learning For Life

This term we will learn about managing feelings, this broad topic covers age appropriate healthy and unhealthy relationships, human rights, matching emotions and caring friendships.

Maths

Our maths topics this term are measures, money, calendar and time. We will explore these concepts through practical work and real life learning opportunities.

Music

This term learners will be immersed pop ballads and Old-school Hip. They will be invited to play instruments like the glockenspiel, and keyboard as well as recorders, drums and the piano.

Design Technology

Learners will design and make all things Egyptian using multimedia, a range of materials and textures to create pyramids, canopic jars and hieroglyphic scripts.

Art & Design

Become an architect - design and build their own buildings using junk modelling

Explore the world through monoprint - explore mono printing and mark making

PE

Students will be looking at what it means to be healthy, why and how we can exercise. This will be followed with a dance unit.

Computing

In computing, we will teach internet safety through games and specific teaching about dangers and practice ways to stay safe.

History

We will be exploring life in Ancient Egypt. Finding out about daily life (Nile's importance, jobs), rulers (pharaohs, Cleopatra), beliefs (gods, afterlife, mummification, pyramids, tombs), and achievements (hieroglyphs, inventions), using activities like timeline creation, building models, decoding symbols, and exploring sources.

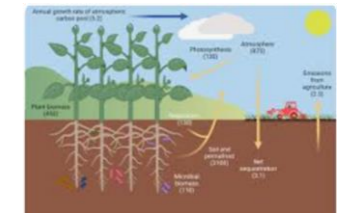

Geography

We will learn where Egypt is in the world and how it compares to our country. Looking at weather and geographical features and map reading.

Science

In science, learners will learn about plants, they will plant seeds and experiment with what they need to grow and identifying the different parts.

Philosophy, Religion and Ethics

In RE, learners will explore the Sikh religion looking at what Sikhs believe.

Then we will focus on the Easter story.

Food Technology

In cooking, children will learn basic skills such as measuring, weighing, and kneading, to make sandwiches and snacks. They will follow simple recipes and practice safe food preparation. This connects to our ASDAN Foodwise course and our 99Things.
