Reading

If you glance at a map of Britain, with a bit of imagination you might think that it looks like someone sitting down. Scotland is the head; the arms are folded over a very full tummy to make Wales; Devon and Cornwall are the outstretched legs and feet; and East Anglia is, well, what we use to sit on. If that is the case, then the backbone of this craggy figure must be the Pennines – a range of hills, moors and mountains that divides northern England. Large sections of the Pennines are protected as an area of outstanding natural beauty.

1. ... *If you glance at a map ...*

In this context, which word is closest in meaning to **glance**? **Tick one.**

open

☐

look

☐

fold

☐

colour

☐

2. What does the text suggest that a map of Britain looks like (with a bit of imagination)?

3. What are the arms *folded over* the top of?
