**CHALLENGE:** Name the sentence type for the sentences above.

You might believe that the Anglo Saxons are long gone and, to a certain extent, you'd be right. As far as Britain is concerned, their time was really between the eighth and eleventh centuries. But there are still traces where they live on, if you know where to look – including your own address. Many of the place names that are so familiar to us today actually come from Anglo Saxon roots. If your home town's name ends in bury, borough, ton or ley, then the Anglo Saxons started a settlement there. Your next question is, what do these roots mean?

1. ... *to a certain extent, you'd be right.*

In this context, which words are closest in meaning to **a certain extent?** Circle one.

totally sure

extreme amount

without question

in some ways

---

2. ... *As far as Britain is concerned ...*

In this context, which word is closest in meaning to **concerned?** Circle one.

involved

worried

extinct

invaded

3. According to the text, when did the Anglo Saxons have *their time*?

---
