

11th September 2026

Dear Parent/Carer

We have been delighted to have such a positive start back to school and it has been lovely to watch students thriving in their lessons.

There is an element of school life, however, that has been less positive - the drop off/pick up experience in the car park. We are looking to implement new traffic management systems in the coming days and weeks, but in the meantime it would be hugely helpful if all car park users could do the following:

- Car share wherever possible to alleviate the volume of traffic
- Encourage children to only cross the car park using the designated crossing areas (staff will also continue to monitor this)
- Keep to the 5mph limit
- Be patient with one another and recognise that children's safety is more important than getting out of the car park quickly

We will communicate any changes to car park arrangements when they are in place, but your adherence to the above would massively help us at these busy times of day.

Many thanks in advance for your support.

Warm Wishes

Mr Norris
Principal
