

19th March 2026

Dear Parent/Carer

We are pleased to let you know that our subject curriculum maps for the academic year are now available on the school website.

These documents provide an overview of the key knowledge, skills and themes your child will be learning in each subject throughout the year. We hope this will support you in understanding the journey of learning across the curriculum and in talking with your child about what they are studying.

You can access the Curriculum Maps by visiting the school website and navigating to the [Learning](#) section and choosing the subjects from the drop-down menu.

You might be aware that a national curriculum and assessment review was published in November 2025 called '[Building a World Class Curriculum for All](#)' and that schools are expecting further guidance on this in the coming months. When we understand more about the changes proposed, we will begin to adapt and modify the curriculum maps and let you know when these have been updated.

If you have any questions or would like to provide feedback on the curriculum maps, please do not hesitate to contact me at the school and I will put you in touch with the relevant person.

Thank you for your continued support.

Kind Regards

Mrs Gray
Vice Principal
